

DURAIRAJU K

Senior Product Manager

Bengaluru, India | durairaj6893@gmail.com | +91 9791725973 | linkedin.com/in/durairaju

PROFESSIONAL SUMMARY

Senior Product Manager with 9+ years of experience leading end-to-end product execution for B2B SaaS platforms across marketplace, logistics, and financial management domains. Proven track record of defining product strategy, maintaining prioritized roadmaps, and driving cross-functional teams to deliver scalable solutions. Adept at stakeholder communication, product documentation, and aligning engineering and design teams to execute on a clear product vision. Holds an MBA in Marketing and Operations.

CORE COMPETENCIES

Product Strategy & Roadmap Ownership • B2B SaaS Product Management • Financial Product Development
ERP & Accounting Workflows • General Ledger & Financial Reporting • Payables & Receivables Management
Cross-functional Leadership • End-to-End Product Execution • Agile & Scrum Delivery
User Research & Voice of Customer • Product Requirements Documentation • Go-to-Market Collaboration

WORK EXPERIENCE

Senior Product Manager | LetsTransport

Bengaluru, India • Apr 2024 – Present

- Scaled LetsTransport Partner app from 10K+ downloads to 100K+ downloads.
- Led end-to-end product execution from ideation to launch: Loadster app – Uber for Truckers (10K+ drivers, 5K+ clients).
- Delivered real-time payment visibility and financial transparency features that improved partner adoption by 15%.
- Reduced Google Maps API infrastructure costs by 99%+ through routing workflow re-architecture, demonstrating strong product-led cost management.

Growth Product Manager | LetsTransport

Bengaluru, India • Jul 2021 – Mar 2024

- Built an Order Management System (OMS) integrating financial controls that reduced unbilled Days Sales Outstanding (DSO) by 20 days — improving revenue recognition accuracy for finance teams.
- Designed a pricing intelligence and bid management model incorporating payables and cost data, improving indent win rate by 23% on external portals.
- Improved partner activation from 34% to 65% through data-driven onboarding redesign and funnel experimentation — a core B2B SaaS growth metric.

Co-Founder & Head of Product | Webboombaa

Chennai, India • Jun 2016 – Jun 2021

Co-founded and scaled a product marketing agency to INR 3 Cr ARR; led to acquisition by a US-based venture-building firm.

- Defined product vision and roadmap for SaaS-based influencer marketplace platform; managed end-to-end lifecycle from 0 to 1.
- Built and launched MVPs for 15+ industries including e-commerce, healthcare, and D2C brands, applying structured product discovery and user research.
- Led cross-functional team of 25+ across Product, Marketing, Sales, and Operations; drove stakeholder alignment across geographies.
- Managed client relationships across diverse industries, developing deep understanding of B2B SaaS customer objectives and pain points.

PERSONAL PROJECTS

AI Job Application Copilot | *Anthropic Claude Sonnet · Streamlit · Python*

- Built an LLM-powered Job Application Copilot using Anthropic Claude Sonnet and Streamlit to analyze resumes against job descriptions and generate personalized career recommendations.
- Designed prompt-driven workflows for ATS match scoring, skill-gap identification, cover letter generation, and interview preparation.
- Implemented structured JSON-based AI outputs to improve reliability, consistency, and user experience of generated insights.
